You could spend a lifetime trying to find such a perfect location. The ability to spend a morning skiing on the beautiful slopes of the Sierra Nevada and then sipping cocktails on the beach whilst watching the sun set are both within easy reach and can genuinely be done on the same day. What more could you wish for?

The property itself was built around 12 years ago and has all of the paperwork that is required, not horror stories to be uncovered here.

Beautifully presented and laid out to make the most of the breath-taking surroundings, there are four double bedrooms, two with en-suites, a study areas and balconies.

The main living area is simply spectacular with large feature windows making the most of the views, a fully fitted modern

kitchen with the addition of a walk through pantry room and a separate utility / laundry room. This also lead through to the large garage. There is also a cloak room on the ground floor. To the lower floor are two of the bedrooms which open onto a private garden area, perfect for enjoying the sunsets.

To the first floor is a galleried landing which is perfect for a relaxation space to read a book or listened some music. This leads to the two main bedrooms, both en-suite and making the most of the views with their own private balconies.

Outside the grounds extend to just over 2 Hectares and are mostly well landscaped in a very complimentary style to the local surroundings. There is also a lovely Pool are to make the most of the summer sun and take in the peaceful surroundings.

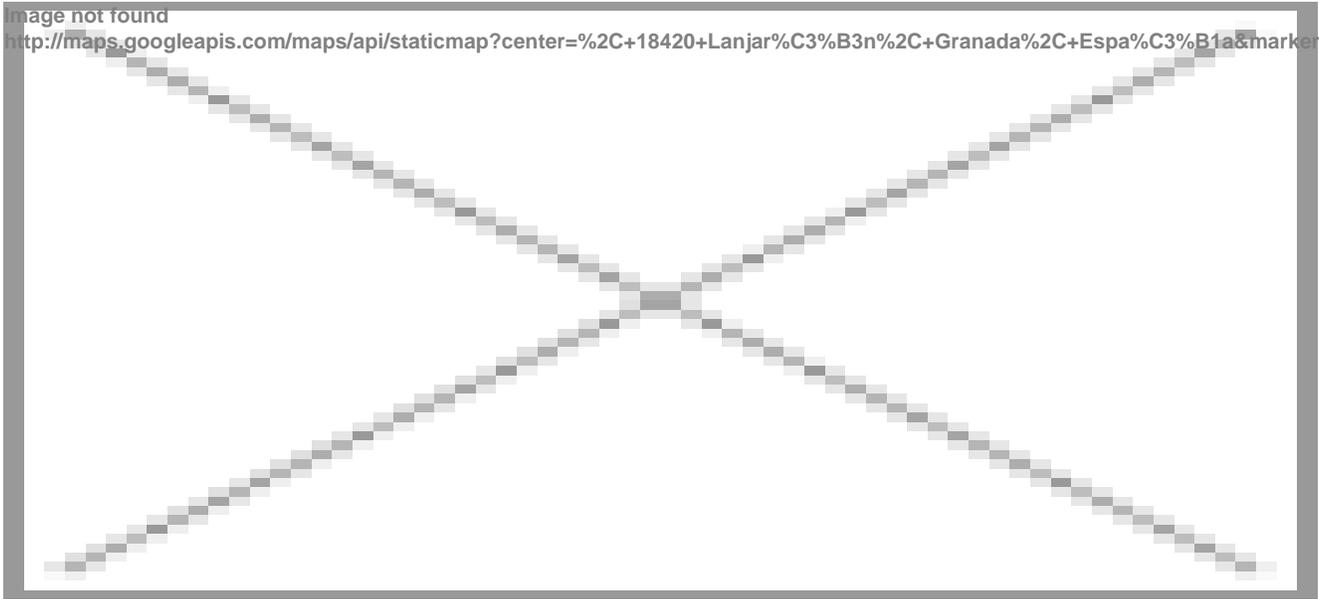

Truly a unique property that was designed by an English architect and is ready to move into. Enjoy the video tour and do not hesitate to contact us for more information or to arrange a private viewing.
